

```
public class TestGarbage1{  
    public void finalize(){System.out.println("garbage collected object");}  
    public static void main(String args[]){  
        TestGarbage1 s1=new TestGarbage1();  
        TestGarbage1 s2=new TestGarbage1();  
        s1=null;  
        s2=null;  
        System.gc();  
    }  
}
```

### Output:

```
